

# Foreword

by John Meszaros  
Audi Marketing Manager.

Welcome to the Audi Sport International Rally

It has always been Audi Sport's intention, since we took over sponsorship of the Audi Sport Rally, to provide the support to raise the level of competition and status of a rally that we have always believed to have the potential not only to become one of Britain's major events, but also one with a worldwide reputation.

Last year's debut for the event in Britain's premier rally championship The Shell Oils Open Rally Championship, proved the event not only to be popular with competitors, but also with the thousands of spectators who watched it.

This year we have kept the popular and successful format. There are a few key changes, most notably to the stages themselves, keeping the level of competition at its most challenging and testing for competitors, as well as entertaining for spectators.

May I take this opportunity to wish all competitors and their essential support teams the best of luck for this year's event, and also on your behalf, to thank the officials and organisers, whose unstinting efforts make the event possible.

Good Luck !

## SECTION V - Running of the event

### ARTICLE 15 - Start

Competitors will be required at the pre-start holding area in Newtown 20 minutes before their due start time.

1. The exact time of the start will appear on each crew's time card.  
Any crew arriving late at the start of the event or a leg or section shall be penalised by 1 minute for every minute late. Any car reporting more than 10 minutes late shall not be allowed to start.  
Since the crews have 10 minutes within which to report at the start of the event, of a leg or of a section, if they report within these 10 minutes the exact starting time shall be entered on the time card. The minimum interval between the crews must be respected.
2. Crews are obliged to have their passage checked at all points mentioned on their time card and in the correct order, under pain of exclusion. ^  
The target time for covering the distance between two time controls will appear on the time card.
3. Hours and minutes will always be shown thus: 00.01 - 24.00 only the minutes which have elapsed will be counted. Throughout the event, the official time will be that specified in Art. 3.
4. All crews shall receive a road book containing a detailed description of the itinerary which has to be followed this itinerary is compulsory under pain of exclusion.

### ARTICLE 16 - Controls - General Provisions

1. All controls, i. e. passage and time controls, start and arrival of special stages, regrouping and neutralisation zone controls, will be indicated by means of FISA approved standardised signals.
2. The beginning of the control area is marked by a warning sign on a yellow background. At a distance of about 25m. the position of the control post is indicated by an identical sign on a red background. The end of the control area, approximately 50m. further on is indicated by a final sign on a beige (yellow) background with three black transversal stripes.
3. All control areas (i. e. all the areas between first yellow warning signal and the final beige (yellow) one with three transversal stripes) are considered as "Parcs Fermes" (cf Art. 20). ,
4. The stopping time within any control area must not exceed the time necessary for carrying out control operations.
5. It is strictly forbidden under pain of exclusion from the event:
  - (a) to enter a control area in any direction other than that of the rally
  - (b) to re-cross or re-enter a control area once checking-in has taken place at this control.
6. The target check-in time is the responsibility of the crews alone, who may consult the official clock on the control table. The post marshal may not give them any information on this target check in time.

7. Control posts shall be ready to function 15 minutes before the target time for the passage of the 1st crew.  
Unless the Clerk of Course decides otherwise, they will cease to operate 15 minutes after the target time for the last crew, plus exclusion time.
8. Crews are obliged to follow the instructions of the marshal in charge of any control post. Failure to observe this may lead to exclusion from the event at the discretion of the Stewards of the Meeting.
9. The Road Marshals and Post Chiefs shall be distinguished by the signs as given in an information bulletin.

#### ARTICLE 17 - Passage Control (PC) - Time Control (TC) - Exclusion

##### A. PASSAGE CONTROLS

At these controls, the Post Marshals must simply stamp the time card as soon as this is handed in by the crew, without mentioning the time of passage.

##### B. TIME CONTROLS

At these controls, the Post Marshals shall mark on the time card the time at which the card was handed in.

#### Check-in Procedure

The check-in procedure begins at the moment the vehicle passes the zone entry sign.

Between the zone entry sign and the control post, the crew is forbidden to observe a halt of any kind or to drive at an abnormally slow speed.

The clocking of the card can only be carried out if the two crew members and the car are in the control zone and within the immediate vicinity of the control table.

The check-in time corresponds to the exact moment at which one of the crew members hands the time card to the post marshal.

Then, either by hand or by means of a print-out device the Post Marshal marks on this card the actual time at which the card was handed in, and nothing else.

The target check-in time is the time obtained by adding the time allowed to complete the road section to the time of leaving this section, these times being expressed to the minute.

The crew does not incur any penalty for checking-in before time if the vehicle enters the control zone during the target check-in minute or the minute preceding it.

The crew does not incur any penalty for lateness if the act of handing the card to the Post Marshal takes place during the target check-in minute.

Example: A crew who is supposed to check-in at a control at 18h58' shall be considered on time if the check-in takes place between 18h58'00" and 18h58'59".

Any differences between the actual check-in time and the target check-in time shall be penalised as follows: penalties

- (a) for late arrival : after 15 minutes permitted lateness 10 secs per minute late, or fraction of a minute.
- (b) for early arrival : at least 30 seconds per minute or fraction of a minute.

Lastly, if it is found, that a crew has not observed the rules and check-in procedure as defined above (and especially by entering the control zone more than a minute before the actual check-in time), the Chief Marshal at the control post will make this the subject of a written report to be sent to the Clerk of the Course.

#### Time of Leaving Controls.

(a) If the next road section does not start with a special stage, the check-in time entered on the time card shall constitute both the arrival and the end of the road section and the starting time of the following one.

(b) Conversely, when a time control is followed by a start control for a special stage, the following procedure shall be applied:

1. These two posts shall be included in a single control area (see Art. 16. 3 and Art. 20), the signs of which shall be laid out as follows:

(a) Yellow warning sign (Beginning of zone):

(b) Red sign with dial (time control post) at a distance of approximately 25m.

(c) Red sign with flag (start of the special stage) at a distance of 50m to 200m

(d) Finally, end of control sign (3 transversal stripes on a beige (yellow) background) 50m. further on.

2. At the time control at the finish of a road section, the Post Marshal will enter on the time sheet on one hand the check-in time of the crew and on the other, it's provisional starting time for the following road section. There must be a 3 minute gap to allow the crew to prepare for the start.

Furthermore, in the case of a puncture, the crew concerned will be allocated a maximum of 5 minutes extra. The starting time which will then be assigned to this crew after repairs must respect the interval between it and the preceding crew, to which its classification to its priority give it the right (Art. 19. 11).

3. Immediately after checking-in at the time control the crew will go to the start of the special stage. The marshal in charge of the post will enter the time foreseen for the start of the stage on the event sheet, which will usually correspond to the provisional starting time for the road section. He will then start the crew according to the starting procedure laid down in the regulations (Art. 19. 4).

4. In the case of an incident, should there exist a divergence between the two entries, the starting time of the special stage will be binding, unless the Stewards of the Meeting decide otherwise.

5. The finish time recorded at a special stage finish will be taken as the departure time for the next road section (but discounting seconds e. g. if' a finish time of 16hr 38' 21" is recorded then 16hr 38' is taken as the start time of the following road section).

#### C. EXCLUSION FROM THE EVENT

1. Any lateness exceeding 30 minutes on the target time between two time controls, or a total lateness exceeding 30 minutes at the end of each section and/or leg of the rally, or a total lateness of more than 30 minutes will result in the exclusion of the crew.

EXCEPTIONALLY: From the designated time control after the finish of the last special stage and any controls from there to the finish control in Telford, there will be no penalty free lateness. Competitors in this road section of the rally will be penalised for lateness at 10 seconds per minute over target arrival time at a control. Maximum lateness on this road section will be 15 minutes.

2. In no case can early arrivals be used as a means of reducing the lateness resulting in exclusion. Neither shall penalties for early arrival be taken into consideration when calculating the maximum lateness resulting in exclusion.

Examples:

Road Section A:

Start 12h00 - Target time 1h00 - Check in time 13h10

Penalty for late arrival = 0

Lateness counting towards exclusion = 10mins.

Road Section B: - Target time 1h30 - Check-in time 14h20

Penalty for early arrival = 20mins. x 30sec. /mia = 10mins.

Lateness counting towards exclusion = 10mins. (not compounded)

Road Section C: - Target time 2h00 - Check-in time 16h30

Penalty for late arrival = 20mins. cumulative lateness - 15 mins. Penalty free = 5mins. x 10sec. /mia = 50secs.

Lateness counting towards exclusion = 10mins.

TOTAL ROAD SECTION CONTROLS A+B+C

Total penalties (for late and early arrivals) :

0 + 10mins. + 50secs. = 10mins. 50secs.

Total lateness counting towards exclusion : 10 + 10 = 20mins.

3. The exclusion time may be increased at any point by the Stewards of the Meeting, upon the proposal of the Clerk of the Course. The crews concerned shall be informed of this decision as soon as possible.
4. Exclusion for exceeding the maximum permitted lateness may only be announced at the end of a section or at the end of a leg.

ARTICLE 18 - Regrouping Controls

1. Regrouping controls may be set up along the route. Their entry and exit controls shall be subject to the general rules governing control posts. (Art. 16 and Art. 20)
2. The purpose of these regroupings will be to reduce the intervals which may occur between crews as a result of late arrivals and/or retirements. Thus, the starting time from the regrouping control and not its duration must be taken into account.

Example :

120 cars at the start of the rally

First regrouping of 4 hours

Starting time from the regrouping control : 12h01

a) Target time for the arrival of car No. 1 at the regrouping control

8h01 Target time for the arrival of car No. 120 at the regrouping control

10h00

b) Actual arrival time of car No. 1 at the regrouping control 8h45 Actual

arrival time of car No. 120 at the regrouping control 10h00

(60 cars have retired during this part of the rally)

c) Starting time of car No. 1 12h01

Starting time of car No. 120 13h00

The respective length of stopping time shall therefore have been :

3h16 for car No. 1

1h10 for car No. 120

3. On their arrival at these regrouping controls the crews will hand the Post Marshal their time card and possibly the sheets for the special stages covered. They will receive instructions on their starting time. They then must drive their car immediately and directly to the pare ferme (Art. 20). The starting order shall be that of the arrival. At the moment of the start, they shall be given a new time card.
4. As far as possible, after regrouping, the starting order follows the general classification drawn up once this regrouping has been reached. Otherwise, cars start again in the order in which they arrived. In no case can the times set during the special stages alone be taken into consideration when establishing the classification, this must be done, only taking road penalties into consideration as well.

#### ARTICLE 19 - Special Stages

1. Special stages are tests on roads closed specially for the event.
2. During these events, all those in the car must wear approved crash helmets and seat belts and shall not smoke, under pain of exclusion. There must be a SOS board/CMC board carried in the competing vehicle misuse will be reported to the Stewards of the Meeting.
3. Crews are forbidden to drive in the opposite direction to that of the rally, under pain of exclusion.
4. Starts of special stages will be given as follows:  
When the card with its crew on board has stopped in front of the starting control, the marshal will enter the time scheduled for the start of the car in question on the stage sheet (hour and minute). He will hand this document back to the crew and will count-down aloud 30" - 15" - 10" and the last 5 seconds one by one.  
When the last 5 seconds have elapsed, the starting signal shall be given upon which the car must start immediately.  
A 2-minute penalty shall be imposed on any crew which fails to start within 20 seconds of the starting signal
5. The start of a special stage may only be delayed in relation to the scheduled starting time by the Post Marshal in a case of 'force majeure'
6. A false start, particularly one made before the marshal has given the signal, will be penalised by 1 minute. This penalty does not exclude heavier penalties being inflicted by the Stewards of the Meeting especially if the offence is repeated.
7. Special stages will end in a flying finish, stopping between the yellow warning sign and the stop sign being forbidden on pain , of exclusion. Timing will be done on the finish line, which will be by hand timing. At a distance of 100m to 300 m after the finish, the crew must report to a control (Point Stop) indicated by a red "STOP" sign to have its finishing time entered on the timing sheet (hour, minute, and second). If the timekeepers cannot give the exact finishing time to the Marshals immediately, the latter will only stamp the crew's sheet and the time will be entered at the next neutralisation zone or regrouping control.

8. If, through a fault of the crew, the time entry cannot be made, the following penalties shall be imposed:
  - (a) at the start: exclusion
  - (b) at the "STOP<sup>1</sup> (Point Stop) 5 minute time penalty.
9. The times recorded by the crews in each special stage, expressed in hours, minutes and seconds, shall be added to other penalties (road, technical etc. ) and expressed in time.
10. During a special stage, assistance is not forbidden, but must, in no case, be an obstacle to the running of the stage and it is forbidden to change a set of tyres.

However non competing vehicles are not permitted to enter a special stage or its boundary until all competing cars have traversed the special stage, all penalty lateness for that special stage has expired and the stage has been closed by the Stage Commander and then only under his instruction. Breach of this regulation will entail exclusion of the competitor responsible for the vehicle and/or the competitor assisted as a result of the action of this vehicle.
11. The starting intervals for special stages must respect the same dispositions as those laid down for the start of the leg in question. Exceptionally - two special stages of less than 3 miles (5km) long each all on sealed surfaces will have start intervals of 30 seconds.
12. Interruption of a Special Stage: When a special stage has to be definitively stopped for any reason whatsoever before the last crew has covered it, a classification for the stage may however be established by allocating to each crew, which has been unable to complete the stage because of the interruption, the slowest time set before the interruption. This classification may be drawn up even if only one crew has been able to cover the stage in normal racing conditions. Only the Stewards of the Meeting may apply this disposition after reception from the Clerk of the Course of the reasons for the interruption. Should the Stewards consider the slowest time set as abnormal, they may choose as the scratch time the one among the four slowest which seems the most suitable.

However, no crew which is totally or partially responsible for stopping a stage may benefit from this measure. It will be given the time which it might eventually have set if this is greater than the scratch time awarded to the other crews.
13. Any crew refusing to start a special stage on the time and in the position allocated to it shall be given a 5 minute penalty.
14. For each special stage competitors will be given stage bogey times. The method of penalties will be as follows:
  - (a) A competitor recording less than the stage bogey time will be debited with the stage bogey time.
  - (b) A competitor exceeding the stage bogey time will be debited with his recorded time.
  - (c) A competitor exceeding the road target time will be debited with the target time and will also have aejz minutes in excess of target time added to his accumulated lateness as described in Art 17. C and will as appropriate be subject to the penalty of 10 seconds per minute or exclusion.

ARTICLE 20 - Parc Ferme

1. The cars shall be subject to the "pare ferme" rules:
  - (a) from the moment they enter the starting area, a regrouping zone or an end of leg, until they leave one of these (Art. 18. 3)
  - (b) from the moment they enter a control area until they leave it (Art 16. 3 17. B 19. 7)
  - (c) from as soon as they reach the end of the event until the time for lodging protests has expired (Art. 24).
2. (a) While the vehicles are subject to the "pare ferme" rules, any repairs or refuelling is strictly forbidden, under pain of exclusion.
  - (b) However, if the Scrutineers note that a vehicle seems to be in a condition which is not compatible with normal road use, they must immediately inform the Clerk of the Course thereof who may request that the car be repaired.
  - (c) In this case, the minutes used to carry out the intervention will be considered as the same number of minutes of lateness recorded on the road section. They will therefore be taken into consideration for the calculation of the exclusion. This is why the time spent on repairs may not exceed the allowed time before the car is penalised. If this time is exceeded, exclusion shall be announced.
  - (d) In order to prevent a crew from trying to make up lost time after the repair the crew will possibly be given a new starting time.
3. By way of exception, and under the supervision of a competent Marshal, the crew may, while in the pare ferme, at the start, regrouping zone or end of leg (. 1a):
  - change a puncture or damaged tyre using the equipment on board
  - have a new windscreen fitted with the possibility of having outside help.These repairs must be completed before the starting time, otherwise a penalty shall be imposed in accordance with the provisions laid out under (. 2. c & .d).
4. As soon as they have parked their car in the pare ferme, the crew will leave the pare ferme and no member of the crew will be allowed to re-enter it.
5. To leave a pare ferme for the start, regrouping halt or end of leg (. 1a), the crew shall be allowed to enter the pare ferme 10 minutes before starting time.
6. If a vehicle is unable to move under its own power:
  - (a) at the entrance or exit of a pare ferme, at the start, regrouping halt or end of leg, a thirty second penalty shall be imposed. This penalty shall not count towards exclusion.
  - (b) at the start of the special stages, it will be excluded from the event.
7. Any infringements of the pare ferme regulations shall result in exclusion from the event.

## SECTION VI - Scrutineering - Penalties

### ARTICLE 21 - Scrutineering Before The Start And During The Event

1. Any team taking part in the rally, must arrive at scrutineering with its crew and car in accordance with the given timetable.  
Any car reporting to the scrutineering area outside the prescribed time limits will not be allowed to start, except in the case of force majeure duly recognized as such by the Stewards of the Meeting.  
The crew must show the car's homologation form as well as any appendices to this form. If these are not submitted, the Stewards of the Meeting may refuse to allow the car to start.  
After scrutineering, if a vehicle is found not to comply, the Stewards of the Meeting may set a deadline before which the vehicle must be made to comply. Any vehicle which does not comply will be refused the start.
2. The scrutineering carried out before the start will be of a completely general nature (checking of licences, make and model of car, apparent conformity of the car with group in which it is entered, essential safety items conformity of the car with the National Highway Code, etc. ).  
This shall include :
  - Identification of the crew. Each member must have with him two recent identity photos (4x4 cm)
  - Identification of the vehicle, the chassis and cylinder block of which may be "marked" at any time, this being left to the organisers discretion.
  - A noise check to test to compliance with the legal limit of 84dBA at 5000rpm.
  - A check for the red warning triangle and SOS board to be carried in each car.
  - A check on the competitors crash helmets. British crew members must have helmets carrying the appropriate RAC MSA approval. Foreign competitors must have helmets complying with FISA regulations. Helmets not complying or judged to be in poor condition will be impounded.
3. To be allowed to start, all cars must be equipped with a roll cage complying with the FISA specifications, with one or two fire extinguishers (total minimum contents 4kg. ) and other safety devices as specified by the FISA. No car will be allowed to start unless it complies with the FISA safety regulations.
4. Additional checking may be carried out at any time during the event, of the crew members as well as of the car. The competitor is responsible for the technical conformity of his car throughout the entire duration of the event.
5. Should identification marks (.2) be affixed, it is the responsibility of the crew alone to see that these are protected until the end of the event. Should they be missing, the car will be excluded from the event immediately..
6. Any fraud discovered, and in particular the fact of presenting as intact identification marks which have been retouched, will result in the exclusion of the crew from the event, as well as that of any entrant or crew who has helped or been involved in the carrying out of the infringement. This will not prejudice the fact that the National Sporting Authority, to which the entrant or accomplice belongs, may be asked to impose heavier sanctions.

ARTICLE 22 - Final Controls

1. As soon as a crew arrives at the Moat House Hotel Finish on Saturday 20 October it shall drive its car to the pare ferme A brief check shall be carried out there to verify:
  - \* its conformity with the car submitted at the scrutineering specified under Art. 21;
  - \* if there is cause to impose penalties specified under Art. 23.
2. The absence of one of the identification marks, as per Art. 21.2, shall result in exclusion from the event.
3. Thorough scrutineering involving the dismantling of the vehicle for the crews in the first places in the general classification and/or in each group and possibly for any other crew, may be carried out at the absolute discretion of the Stewards of the Meeting ex officio or following a protest or upon the decision of the Clerk of the Course.
4. Should the above mentioned dismantling be the result of a protest, a deposit of £500, to be paid in advance and covering all the costs incurred by the operation, shall be demanded from the claimant. If the protest turns out to be founded, the deposit shall be reimbursed to the claimant, and charged to the defaulting competitor.

## SECTION VII - Protests - Appeals - Classification - Prizes

### ARTICLE 24 - Protests- Appeals

1. All protests shall be lodged in accordance with the stipulations of the International Sporting Code. (171 et seq)
2. All protests must be lodged in writing and handed to the Clerk of the Course together with the sum of £150 which shall not be returned if the protest is judged unfounded.  
If the protest requires the dismantling and the re-assembly of different parts of a car, the claimant must pay an additional deposit:
  - (a) of £300 if the protest involves a clearly defined part of the car (engine, transmission, steering, braking system, electrical installation, bodywork, etc. )
  - (b) of £500 if the protest involves the whole vehicle.
3. The expenses incurred by the work and by the transport of the vehicle shall be borne by the claimant if the protest is unfounded, or by the competitor against whom the protest is lodged if the claim is founded.
4. If the claim is unfounded and the expenses incurred by the protest (scrutineering, transport etc. ) are higher than the deposit amount, the difference shall be borne by the claimant. Conversely, if the expenses are less, the difference shall be returned to him.
5. The entrants may lodge an appeal against the decisions, in conformity with the stipulations of Art. 181 of the International Sporting Code.

### ARTICLE 25 - Classifications

1. Penalties shall be expressed in hours, minutes and seconds. The final results shall be determined by adding the times obtained in special stages and the penalties incurred during the road sections and any other penalties expressed in time. The crew with the lowest total shall be proclaimed the overall winner, the next lowest, second and so on. The Group and Class results shall be determined on the same basis.
2. In case of ex-aequo, he who accomplished the best time for the 1st special stage will be proclaimed the winner. If this is not sufficient to be able to decide between the ex-aequo competitors, the times of the 2nd, 3rd, 4th, etc. special stages shall be taken into consideration. This rule can be applied at any time during the event.
3. The results will be posted in accordance with the programme.
4. The classification is official at the end of the\* rally, and final 1 hour after the posting of the results.

These classifications become final 1 hour after posting as far as the elements which were used in drawing them up are concerned. These elements, and no others, cannot then be the subject of any subsequent protest when the official classification is posted at the end of the event.

6. Entrants wishing to compete for awards other than the General Classification must indicate so on the entry form and scrutineering card. The organisers retain absolute discretion to accept or reject any such claim and may call for supporting proof from entrants.
