

A MESSAGE from Ian Jordan Managing Director of Bulldog Security Products.

Welcome to the Bulldog Security Products Rally 2006.

It is with great pleasure that we invite you to the RallyBase in Oswestry for a second year. The new venue was voted a success by everyone, last year and for 2006 there has been some fine-tuning to make the experience even more enjoyable.

The team from Wolverhampton Car Club has planned a tight and demanding rally to test everyone's skills whatever their experience. In selecting the route they have considered the unprecedented prices of fuel and Forestry Commission roads. The final version is a balance of demanding stages and reasonable road mileages, which I am sure you will enjoy. The famous Welsh weather will no doubt play its part on the day to make the competition truly exciting.

With reducing numbers of competitors able to compete on full-length forest stage rallies The Wolverhampton Club has come up with an innovative idea to encourage first timers into the woods. The Bulldog Mini Rally will be run over just two of the Bulldog Rally's stages and is intended as an incentive to anyone in the sport who has never experienced a forest rally.

Once again The Bulldog Rally will see the climax of several close fought championships. As one make series become more and more important with the decline of the number of homologated cars it is good to see separate categories for Subaru, Mitsubishi, Peugeot and Ford Fiesta models.

To those of you involved in any of these and indeed to all competitors we wish you a safe event and good luck.

- 1 Timing of the event will be governed by the Target Timing Regulations (K30), using Digital clocks operated by Officials under the control of an MSA Approved Timekeeper.
- 2 All clocks will be set to British Summer Time.
- 3 All Controls will open 15 minutes before the Due Time of **Course Opening Car** and close 15 minutes after the Due Time of the last Competitor still running (K29.1), having taken into account any delays.
- 4 The rally will consist of Special Stages and Road Sections.
- 5 Lateness in excess of Target Time on Road Sections and Stage Maximum Time on Special Stages is cumulative. The maximum penalty free lateness will be 15 minutes (K30.4e), K30.4f)). Once a Competitors' cumulative lateness calculated from the previous Main Control exceeds the maximum penalty-free lateness, the Competitor will be **deemed to have RETIRED**.
- 6 To be classified as a finisher a crew must report, with their car, at all controls within their permitted maximum lateness (Article 15.5).
- 7 It is the Competitor's responsibility to ensure that his times are correctly recorded and that Time Cards are handed in when and where instructed. Should any recorded time not be legible or not appear authentic the Organisers may use any means at their disposal to establish a time.
- 8 Control and Stage Signs will conform with K28.8.
- 9
 - a) **Special Stage timing** will be to the previous tenth of a second (K30.2).
 - b) Each Special Stage will have a Bogey Time set at 65 mph for unsealed surfaces or 75 mph for sealed surfaces, and a Stage Maximum Time (K30.4(c)) set at approximately 30mph, which will be indicated on the Time Cards.
 - c) Competitors will receive penalties on Special Stages as follows:-
 - (i) Under Bogey
- **Bogey Time**
 - (ii) Over Bogey under Stage Maximum
- **Actual Time Taken**
 - (iii) Over Stage Maximum
- **Stage Maximum Time**

Time in excess of Stage Maximum Time on a Special Stage will count towards the Competitor's Cumulative Lateness (Article 15.5)
 - d) Competitors must be ready to start a Special Stage when required to do so by the Start Marshal (K25.12). See Art. 15.11.c (iii).
- 10
 - a) **Road timing** will be to the previous whole minute.
 - b) Each Road Section will be allotted a Target Time based on an average to comply with K3.3.1. Competitors can calculate their Due Time of arrival at any Timing Control by adding this Target Time to their recorded time of departure from the preceding Timing Control. On Road Sections following a Special Stage, extra time may be included to allow for any delay at the Special Stage Finish.
 - c) At all Timing Controls on Road Sections, Competitors who are early may wait for their Due Time outside the Control Area. The time recorded at these controls shall be the time on the official

clock when the crew submits the Time Card to the Official, provided that the car and both crew members are within the Control Area. Once a Competitor's car enters the Control Area, the crew must submit their Time Card to the Official within one minute: (i.e. a Competitor's car may enter the Control Area up to 59 seconds before their Due Time, without incurring a penalty for early arrival) See K29.3, K29.3.1 and K29.3.2.

11 Timing Controls. All controls other than Passage Controls (PCs) will be Timing Controls. The following titles shall describe the various types of Timing Control:

a) Main Control (MC)

i) A Main Control will be situated at the Start and Finish of the Rally, immediately before and after any Rest Halt and at any other specified point. At a Main Control after a Rest Halt, competitors will restart at one minute intervals in number order or in the order of their arrival at the Main Control preceding the Rest Halt or in the order of their arrival at some other preceding control or in the order of General Classification at a specified point if interim results are available.

Each competitor shall be given a due starting time from any Main Control (OUT), and any difference between this time and his/her actual starting time will be counted towards cumulative lateness and a Time Penalty will be applied.

ii) **Regrouping Controls.** The Road Book shall specify the controls, if any, where competitors not excluded by reason of having accumulated more than the maximum permitted lateness at that control, will start the next section with zero lateness towards exclusion.

b) Special Stage Arrival Control (SSA)

At this time control the marshal will enter the competitors time of arrival and the provisional starting time for the special stage which must be a minimum of 3 minutes after the arrival time in order to allow the crew to prepare for the stage. The area between the Special Stage Arrival Control and the Stage Start is Parc Fermé but should the crew need to change a flat tyre a maximum of 5 minutes extra will be allowed without penalty and the start time amended accordingly. Any time in excess of this 8 minutes will be penalised in accordance with K31(d).

c) Special Stage Start Control (SSS)

i) At the Special Stage Start the marshal will enter the actual start time, which will normally correspond with the provisional start time in hours and minutes. Once a Competitor has clocked in at an SSA, the Start Marshal will assume that they are ready to start the Stage and will issue a Start Time as soon as the Start Line is clear, whether the Competitor is ready or not.

ii) As each section is timed separately, the time taken from SSA to SSS is 'Dead Time' and delays are automatically allowed for.

iii) The start will be signalled by traffic lights which will go from RED (15 seconds to go) through AMBER (5,4,3,2,1 seconds to go) finally to GREEN at the start time. In the event of equipment failure, the start procedure will revert to the manual system that is described in K25.12.

d) Special Stage Finish Control (SSF)

i) A competitor will receive his Special Stage Finish Time in hours, minutes, seconds and tenths of a second at the Special Stage Stop Line. This

time in hours and minutes will be the start time for the next section.

ii) Any Competitor who fails to stop at the Stop Line must return on foot; reversing the car is prohibited and subject to the Penalty of **EXCLUSION** (K25.9.1 and K31(p)).

iii) Times will be entered on Competitors Time Cards at the Stop Line. In the event of equipment failure, times may be established by means of back-up clocks.

e) Service Control (SV)

All Service Areas will have IN and OUT time controls and a Target Time will be specified between these controls and the Section between the IN and OUT controls will be marked as a Road Section.

12 Passage Control (PC)

i) At any point indicated in the Road Book, the Organisers may establish a PC in order to collect Time Cards from Competitors, to provide proof of passage or for other purposes. A Competitor failing to provide the necessary documents at any PC will be deemed not to have reported there and will be **EXCLUDED** (K31(a), Article 15.6 & 15.7).

ii) Any times recorded at a PC will be used only to ensure that Competitors have followed the requirements of the Road Book, and not to calculate Cumulative Lateness.

ARTICLE 16. SUBJECTIVE ROUTE NOTES

1 Unauthorised pre-event reconnaissance, practising or testing over the Special Stages on this event is forbidden (K6.2 and K26.6).

2 Any Competitor or their agent observed on private land without the relevant permission within the area covered by the maps specified in these Supplementary Regulations after their publication will be **REFUSED A START** or **EXCLUDED FROM THE RESULTS** as appropriate.

The only exception to this regulation will be for persons who live on or whose employment causes them to travel along part of the route used on the event.

3 Subjective Route Notes. Competitors may purchase Subjective Route Notes made for the event from Brian Patterson (see advert in these Regulations) Only the Route Note Document supplied for the 2006 event may be used (K25.13); - this does not, however, preclude competitors from making notations thereon to suit their own purposes. In all instances, competitors are advised that the Organisers accept no liability or responsibility in the use of the Subjective Route Notes.

ARTICLE 17. SERVICING

1 Two categories of support vehicle will be permitted on the Bulldog **and Bulldog Clubmans** Rallies; Service Vehicles and Management Vehicles (Article 17.4). Any person travelling in a Service Vehicle is "Service Personnel"; any person travelling in a Management Vehicle is "Management Personnel".

2 Each Service or Management Vehicle must be registered with the Organisers, giving its vehicle registration number, before an official plate is issued for it. The use of a Service or Management plate on a vehicle not previously registered with the Organisers is an offence for which a penalty up to **EXCLUSION** may be applied.

- 3 There will be Service Areas at strategic points where the Service Personnel and/or Management Personnel for the competing car may carry out work. These will only be accessible to Competitors and Service or Management Vehicles bearing Official Plates.

No other areas may be used by Service Vehicles, which are required to follow a prescribed route to the Service Areas. All other areas will be Out of Bounds to Service Personnel and Vehicles.

- 4 Emergency servicing will be permitted in designated areas after some Special Stages, from Management Vehicles displaying the appropriate Management Plate. These plates may only be used on conventional saloon cars or their estate car derivatives, or on certain 4x4 off-road leisure vehicles, subject to approval by the Organisers. The use of roof racks is not permitted. These vehicles must follow the instructions issued by the Organisers in the Service Pack, which will specify sections of the rally route which are Out of Bounds to Management Vehicles. Application for a Management Plate must be made on the Official Entry Form (see Articles 8.8(b) and 8.9(b)). The Organisers reserve the right to restrict or refuse any application for additional plates.

- 5 Competitors may work unassisted on their own cars using equipment carried in the car in 'No Service Areas' except:-

- i) within 100 metres of any Control.
- ii) between the Special Stage Arrival and the Special Stage Start Controls.
- iii) in any Parc Fermé.

The only work permitted in these areas is to carry out the following work unassisted:-

- a) Replace a wheel with a flat tyre by a wheel and tyre carried in the competing car.
- b) Clean lamp glasses, windscreen, windows, identification markings and vehicle registration numbers.

- 6 Service Personnel and Management Personnel are subject to the same regulations as Competitors regarding noise, bad driving manners, etc. Officials and Marshals have been instructed to note any infringement of these rules (Article 14).

- 7 Competitors are responsible for ensuring that their Service Personnel and Management Personnel understand and comply with these regulations and that their Service Vehicle(s) and Management Vehicle(s) bear an Official Plate showing the Competitor's Rally Number. This plate **MUST BE FIXED** to the front of each Service or Management Vehicle and be clearly visible at all times.

- 8 A Competitor receiving assistance contrary to these SRs will be penalised in accordance with (K31(n)), subject to the following modifications: any Competitor whose Service or Management Vehicle is *observed* in an Out of Bounds area will be penalised **10 minutes** for a first offence and by **EXCLUSION** from the results for a second offence; any Competitor *receiving assistance* from a Service or Management Vehicle in an Out of Bounds area will be **EXCLUDED** on the first offence.

- 9 When servicing or emergency service is prohibited:

- a) The use or receipt by the competing crew of any manufactured materials (solid or liquid), spare parts, tools or equipment other than those carried in the competing car is also prohibited.
- b) Where the competing car following the route as prescribed in the road book is required to use the same road(s) at the same time as

Service Vehicle & Personnel or Management Vehicles & Personnel following the service route or management vehicle route prescribed in the Service Book, they may not stop at the same location at the same time.

ARTICLE 18. PENALTIES

- 1 Competitors will start with zero time penalties. The results will be established by adding together the times taken during the Special Stages and the time penalties incurred on the road sections together with all other penalties expressed in time. The Competitor with the lowest total will be the winner and so on.
- 2 If there is a tie, the Competitor who accomplished the best time for the first Special Stage will be proclaimed the winner. If this is not sufficient to be able to decide between the tying Competitors, the times of the second, third, fourth, etc, Special Stages will be taken into consideration.
- 3 The penalties in K31 apply unless specifically modified in these SRs.
- 4
- a) It is at the discretion of an Environmental Scrutineer, a Judge of Fact, a Driving Standards Observer or the Organisers whether a car which causes excessive sound is **REFUSED A START/REFUSED PERMISSION TO PROCEED/OR EXCLUDED** at any time (K5).
- b) A Driving Standards Observer's report which results in the imposition of a penalty for excess speed or bringing the sport into disrepute shall also be reported to the Stewards of the Meeting (K31(l)).
- 5 Competitors are reminded of K24.2.8 for details of computation of penalties in the event that the normal running of a stage be stopped. Should any Special Stage be cancelled during the event, or deleted from the results after the event, only the Stage penalties will be deleted. Unless an Official Bulletin has been issued to the contrary, the cancelled stage must be traversed within the Stage Maximum Time, and will in every other respect be treated as a Road Section.
- 6 Causing an avoidable obstruction on an access road to or from a Special Stage will be penalised by **EXCLUSION** from the results.
- 7 Failure to attend Post Event Scrutiny within the time limit specified for those Competitors selected, will result in **EXCLUSION** from the results.

8 Any competitor failing to report to Scrutineering within 15 minutes of the time specified will mean a loss of priority and the relevant competitor will be placed at the back of any queue that may have formed.
